

CareerRPG Glossary:

Understanding the Language of Gamified Growth

Your guide to mastering the terminology that powers your personal and professional evolution.

Welcome to the Game of Career Growth

CareerRPG transforms self-development into an immersive game experience. To play effectively and evolve strategically, you must first understand its core terms and mechanics.

This glossary will equip you with the essential language needed to navigate your unique growth journey.

NeuroClass

Your Brain's Natural Color Alignment

Your innate cognitive archetype that determines your natural strengths and primary growth affinity.

1 LUMINA (Aurora Gold)

The Dreamer & Innovator

2 CRIMSONIX (Inferno Ember)

The Doer & Enforcer

3 AZURA (Celestine Blue)

The Healer & Connector

4 OBSIDIA (Deep Amethyst)

The Strategist & Optimizer

5 SOLARA (Sunflare Orange)

The Creator & Expressor

6 AUREUS (Verdant Lime)

The Explorer & Learner

7 NOXION (Obsidian Void)

The Critic & Truth Seeker

Role

Support

Strategic planners and long-term thinkers; align with support via vision & synergy

Warrior

Frontline initiator, loves momentum and direct execution

Healer

Empathetic supporters who nurture growth and resolve conflicts, emotionally aligned with restoration, morale, and team care

Mage

Analytical planners who optimize systems and anticipate challenges, power from intellect, manipulation of systems and logic

Archer

Fast-moving, creative attack style; adaptable and showy

Assassin

Agile, adaptive, thrives in chaos and information gaps

Tank

Protective, firm, confronts threats head-on with strong principles

The class or growth style you choose shapes your skills, quests, and evolution track throughout your career journey.

Axis

Your personal alignment score between NeuroClass and Role determines your growth efficiency and potential.

High Alignment

Maximum XP gain, minimal burnout risk

Medium Alignment

Moderate XP gain, some burnout risk

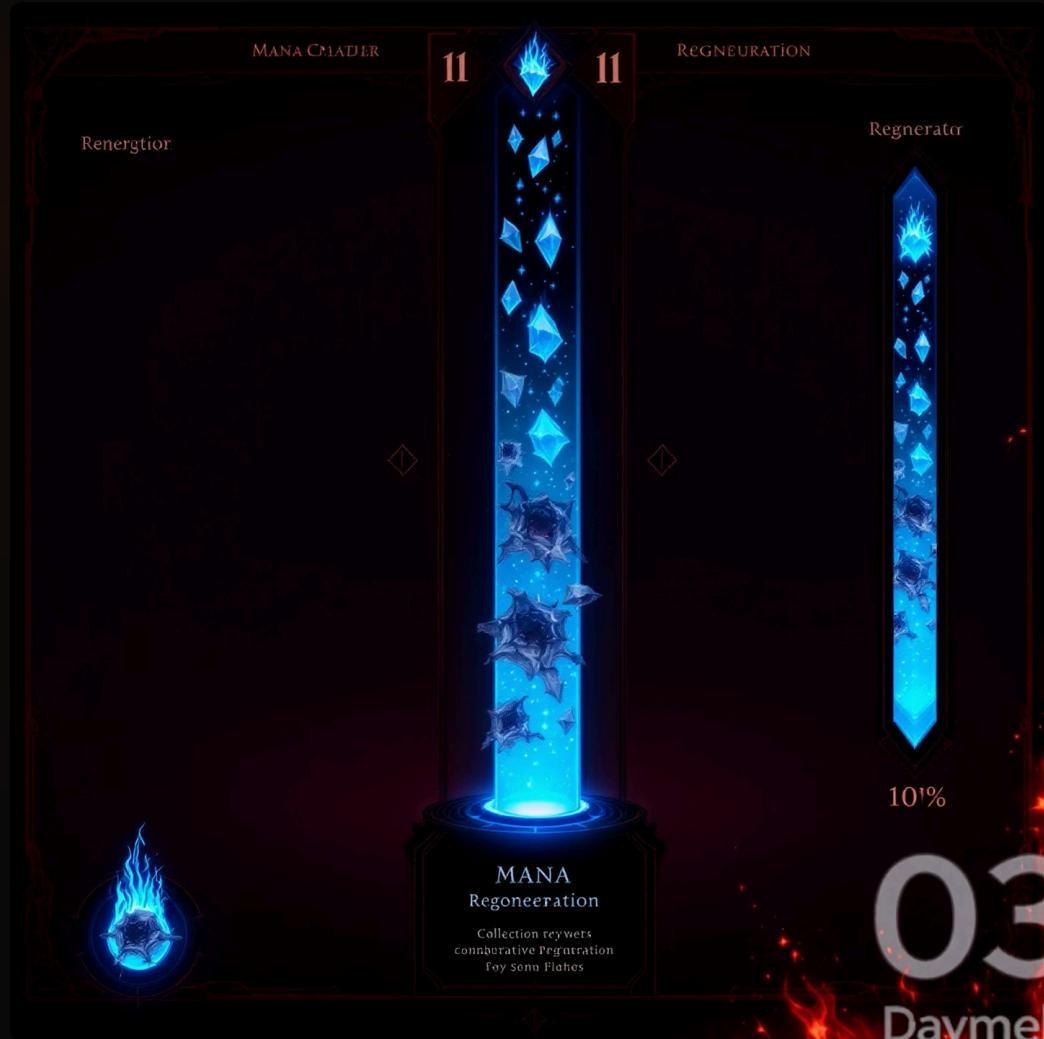

Low Alignment

Minimal XP gain, high burnout risk

Focus Mana

Your Energy Currency

The core resource used to complete Quests and Arcs in the CareerRPG system.

- Regenerates over time or via Focus Rituals
- Measures your active effort capacity
- Depletes as you complete tasks
- Must be managed to prevent burnout

Strategic mana management is essential for sustainable growth and consistent progress.

XP (Experience Points)

Complete Quests

Earn XP by finishing specific tasks aligned with your growth goals

Document Reflections

Gain additional XP by recording insights and learnings

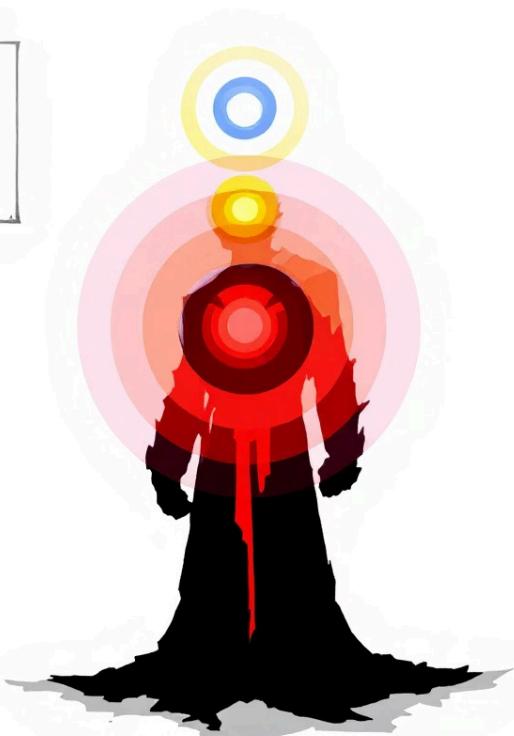

Tier Progression

Accumulate enough XP to advance to the next mastery level

XP serves as the measurable indicator of your professional and personal development within the CareerRPG system.

Affinity Levels

XP modifiers based on how aligned your chosen Role is with your natural NeuroClass:

100%

Primary Role

Perfect match with your NeuroClass, maximum efficiency

80%

Secondary Role

Good match, high but not optimal XP gain

20-40%

Off-Role

Challenging match, significant XP reduction

Tier

Legendary

Elite mastery and leadership; capable of creating new systems and mentoring others

Master

Advanced proficiency with strategic application and deep understanding

Adept

Competent application with reliable results and growing intuition

Apprentice

Initial exploration and learning of fundamental concepts and skills

5

Novice

Basic understanding and implementation with supervision

Your mastery level within a Role unlocks new abilities, quests, and prestige as you advance.

Burnout Risk

The Hidden Growth Penalty

Operating outside your natural alignment for extended periods creates a hidden penalty that accumulates over time.

- Reduces Focus Mana regeneration rate
- Decreases XP gain efficiency
- Creates resistance to completing quests
- May trigger forced rest periods

The burnout system promotes balance and sustainable growth by encouraging alignment with your natural strengths.

Path

Your personalized roadmap from current state to future career goals.

1

Origin Point

Your current skills, experience, and position

2

Milestone 1

First major career achievement with specific skill acquisition

3

Milestone 2

Secondary achievement building on previous growth

4

Destination

Your ultimate career goal and position

Arc

Multi-Step Growth Projects

A themed, comprehensive development sequence that represents major personal or career milestones.

- Contains multiple related Quests
- Typically takes weeks or months to complete
- Rewards substantial XP upon completion
- Example: "Build a Professional Portfolio"

Quest

Actionable Tasks

Specific, measurable activities that drive micro-progress within an Arc

XP Rewards

Each completed Quest provides immediate XP and builds momentum

Example Quest: "Create a one-page resume highlighting your top 5 achievements"

Progress Tracking

Visualize your advancement through an Arc with completed Quests

Chronicle

Your Personal Growth Journal

A comprehensive log that serves as your achievement archive and reflection space.

- Records all completed Arcs and Quests
- Stores personal insights and learnings
- Tracks XP gains and level progression
- Provides evidence of growth for reflection
- Serves as a portfolio of accomplishments

Regularly reviewing your Chronicle reveals patterns in your growth journey and reinforces progress.

Focus Ritual

Meditation

Mindfulness practices that clear mental space and restore focus

Fitness

Physical activity that energizes the body and refreshes the mind

Prayer

Spiritual connection that renews purpose and inner strength

Journaling

Reflective writing that processes experiences and clarifies thoughts

Intentional actions that restore your Focus Mana, supporting energy recovery and promoting reflection on your growth journey.

Axis AI

Your Digital Career Coach

An advanced AI assistant powered by SPAC (Sentient Pre-trained Alignment Core) that provides personalized guidance throughout your CareerRPG journey.

- Analyzes your NeuroClass and Role alignment
- Suggests optimal Quests based on your Path
- Provides feedback on growth strategies
- Helps identify burnout risks before they manifest
- Adapts recommendations based on your Chronicle
